PRODUCT NAME(S) IMPACTED: LB1X printer serie

PRODUCT FAMILY(IES):                  PRODUCT NUMBERS:
Storage                      ___                    ________________
Systems                      ___                    ________________
Networks                     ___                    ________________
PC                           ___                    ________________
Software                     ___                    ________________
Other (specify) Printer         ___                LB10/11/12/13/14/15

PROBLEM STATEMENT:

Due to EOL of several components on the present 6-layer Mainboard, BCFI is introducing a new 4-layer Mainboard effective 990301.

PROBLEM SYMPTOM:

To replace the mainboard on different printers with different configurations BCFI has mainboard KITS which includes the necessary parts (power cable, firmware PROMs).

SOLUTION:

If the customer has printer:                  Order number KIT:
LB12                                         FD-88719-01
LB15                                         FD-88719-01
LB10                                         FD-89990-01
LB10 detached PSU                             FD-89998-01
LB11 with CAERE OCR                         FD-79067-01
LB11 with REQOGNITION OCR and detached PSU   FD-79068-01
LB11 others  
LB13  
LB14  

Mainboard PCB LB12/15  
Mainboard PCB LB10/11/13/14  

ADDITIONAL COMMENTS:

For Dutch customer NS and Austrian customer BB keep ordering
the 8-layer mainboard due to customer specific firmware.

Mainboard 8-layer ( BB/NS)        Partnumber:29-32931-01
