

# *Use of Microsoft Cluster Server with StorageWorks RAID Array Systems*

## Product Note

This kit provides support for StorageWorks RAID Array 310/410/450 with Digital Clusters for Windows NT. In addition, it can also support :

- **RAID Array 310/HSZ20, 410/HSZ40, and 450/HSZ50 with Microsoft Cluster Server with Windows NT Enterprise Edition.**
- **RAID Array 7000 (HSZ70) and the Enterprise Storage Array 10000 (HSZ70) with either Microsoft Cluster Server with Windows NT Enterprise Edition or Digital Clusters for WNT**

---

Configurations using Microsoft Cluster Server with Windows NT Enterprise Edition will require version 5.0 of the HszDisk.sys Class Driver.

Installation and configuration details for the RAID Array 7000/Enterprise Storage Array 10000 in Digital Cluster and Microsoft Cluster Server environments with Prioris and AlphaServers can be found in the *Windows NT Cluster Support for RAID Array 7000 and Enterprise Storage Array 10000*, Application Note (EK-SMA15-AN. A02).

Both the HszDisk Class Driver and the Application Note can be found on our WEB site at:
